## LINCOLN MINING CORPORATION

“With a focus on the acquisition, exploration and development of precious metals projects in North America, Lincoln’s short-term goal is to develop precious metals resources of over one million ounces. In addition to the immediate objective of advancing the Pine Grove project towards feasibility and then into production, Lincoln Mining plans to build a mid-tier company, growing steadily by acquiring new precious metal projects with exploration potential, developing its mining projects and seeking joint venture projects with successful and well financed companies.

An association with a strong partner can assist with the planning and development of large projects. Lincoln Mining welcomes Elgin Mining as an exploration partner and looks forward to a successful working relationship for the advancement of the Oro Cruz and La Bufa projects. It is an opportunity to unlock potential mineral wealth from two exciting and potentially large gold-silver exploration projects.” *Paul Saxton, President & CEO*

## CORPORATE HIGHLIGHTS

- Lincoln Mining’s core property interests are in California, Nevada, and Chihuahua, Mexico. These precious metals projects are all located in districts with outstanding histories of mineral production. All three projects hold potential for mineral resource expansion.
- It is the Company’s immediate goal to make the transition from exploration through feasibility and then production at the Pine Grove gold property in Nevada.
- Lincoln Mining and Elgin Mining are collaborating on two exciting gold exploration projects and it is anticipated by both parties that by working together there is a greater chance of success.
- It is Lincoln’s mid-term goal is to advance the Oro Cruz gold property in California towards economic assessment, feasibility and then towards production.
- Lincoln Mining’s management are dedicated to the ongoing advancement of its projects and working towards becoming a mid-tier precious metals producer.
- Lincoln Mining has a Board of Directors with extensive experience related to mining, mine finance, and the operations of public companies. They are committed to identifying and acquiring projects that will maximize shareholder value.
