INFORMATION CIRCULAR

(As at October 25, 2024, except as indicated)

Lincoln Gold Mining Inc. (the “**Company**”) is providing this Information Circular and a form of proxy in connection with management's solicitation of proxies for use at the annual general meeting (the “**Meeting**”) of the Company to be held on Friday, November 29, 2024 and at any adjournment or postponement thereof. Unless the context otherwise requires, when we refer in this Information Circular to the Company, its subsidiaries are also included. The Company will conduct its solicitation by mail and officers and employees of the Company may, without receiving special compensation, also use email, telephone or make other personal contact. The Company will pay the cost of any solicitation.

APPOINTMENT OF PROXYHOLDER

The purpose of a proxy is to designate persons who will vote the proxy on a shareholder's behalf in accordance with the instructions given by the shareholder in the proxy. The persons whose names are printed in the enclosed form of proxy are officers or directors of the Company (the “**Management Proxyholders**”).

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person's name in the blank space provided or by executing a proxy in a form like the enclosed form. A proxyholder need not be a shareholder.

VOTING BY PROXY

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Shares represented by a properly executed proxy will be voted or be withheld from voting on each matter referred to in the Notice of Meeting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

If a shareholder does not specify a choice and the shareholder has appointed one of the Management Proxyholders as proxyholder, the Management Proxyholder will vote in favour of the matters specified in the Notice of Meeting and in favour of all other matters proposed by management at the Meeting.

The enclosed form of proxy also gives discretionary authority to the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, the management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, Computershare Investor Services Inc., Proxy Department, 100 University Avenue, 8th floor, Toronto,

Ontario, M5J 2Y1, not later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NON-REGISTERED HOLDERS

Only shareholders whose names appear on the records of the Company as the registered holders of shares or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are “non-registered” shareholders because the shares they own are not registered in their names but instead registered in the name of a nominee such as a brokerage firm through which they purchased the shares; bank, trust company, trustee or administrator of self-administered RRSP's, RRIF's, RESP's and similar plans; or clearing agency such as The Canadian Depository for Securities Limited (a “**Nominee**”). If you purchased your shares through a broker, you are likely a non-registered holder.

In accordance with securities regulatory policy, the Company has distributed copies of the Meeting materials, being the Notice of Meeting, this Information Circular, and the Proxy, to the Nominees for distribution to non-registered holders.

Nominees are required to forward the Meeting materials to non-registered holders to seek their voting instructions in advance of the Meeting. Shares held by Nominees can only be voted in accordance with the instructions of the non-registered holder. The Nominees often have their own form of proxy, mailing procedures and provide their own return instructions. If you wish to vote by proxy, you should carefully follow the instructions from the Nominee in order that your shares are voted at the Meeting.

If you, as a non-registered holder, wish to vote at the Meeting in person, you should appoint yourself as proxyholder by writing your name in the space provided on the request for voting instructions or proxy provided by the Nominee and return the form to the Nominee in the envelope provided. Do not complete the voting section of the form as your vote will be taken at the Meeting.

Non-registered holders who have not objected to their Nominee disclosing certain ownership information about themselves to the Company are referred to as “non-objecting beneficial owners” (“**NOBOs**”), as defined under National Instrument 54-101 (“**NI 54-101**”). Those non-registered holders who have objected to their Nominee disclosing ownership information about themselves to the Company are referred to as “objecting beneficial owners” (“**OBOs**”), as defined under NI 54-101.

As permitted under Canadian securities legislation, the Company will forward meeting materials directly to NOBOs. The Company does not intend to pay for Nominees to deliver the Meeting materials and Form 54-101F7 – *Request for Voting Instructions Made by Intermediary* to OBOs. As a result, OBOs will not receive the Meeting Materials unless their Nominee assumes the costs of delivery. The Company is not sending the Meeting materials to shareholders using “notice-and-access”, as defined under NI 54-101.

REVOCABILITY OF PROXY

In addition to revocation in any other manner permitted by law, a shareholder, his or her attorney authorized in writing or, if the shareholder is a corporation, a corporation under its corporate seal or by an officer or attorney thereof duly authorized, may revoke a proxy by instrument in writing, including a proxy bearing a later date. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue an unlimited number of common shares without par value (referred to as “**shares**” in this Information Circular). As of the date of this Information Circular there are 17,202,688 shares issued and outstanding. Persons who are registered shareholders at the close of business on October 25, 2024 (the “**Record Date**”) will be entitled to receive notice of and vote at the Meeting and will be entitled to one vote for each share held. The Company has only one class of shares.

To the knowledge of the directors and executive officers of the Company, no person beneficially owns, controls or directs, directly or indirectly, shares carrying 10% or more of the voting rights attached to all outstanding shares of the Company.

ELECTION OF DIRECTORS

The directors of the Company are elected at each annual general meeting and hold office until the next annual general meeting or until their successors are appointed. In the absence of instructions to the contrary, the enclosed proxy will be voted for the nominees herein listed.

Shareholder approval will be sought to fix the number of directors of the Company at three (3).

Management of the Company proposes to nominate each of the following persons for election as a director. Information concerning such persons, as furnished by the individual nominees, as at October 25, 2024, is as follows:

(“Golden Band”) announced that its senior secured lender, Procon Resources Inc. (“Procon”) had made demand upon Golden Band for payment of all amounts due and owing by Golden Band under a credit agreement of approximately \$19.6 million. On July 22, 2016, the Proposal by Golden Band to its creditors was approved by the creditors. On August 12, 2016, Golden Band obtained an Order of the Court of Queen’s Bench For Saskatchewan granting it approval to implement the Proposal by the company to its creditors. Pursuant to the Proposal all existing equity interests of Golden Band were retracted, cancelled and extinguished and new equity interests have been issued to Procon. Golden Band ceased to be a reporting issuer and was subsequently delisted from the NEX Board of the TSX Venture Exchange. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

The Directors of the Company (the “**Board of Directors**” or the “**Board**”) has the primary responsibility for developing executive compensation strategies for the Company.

The Company does not have a formal compensation program. The Board determines management compensation, without reference to formal objectives, criteria, or analysis. The general objectives of the Company's compensation strategy are to:

- (a) compensate management in a manner that encourages and rewards a high level of performance and outstanding results with a view to increasing long-term shareholder value;
- (b) align management's interests with the long-term interest of shareholders;
- (c) provide a compensation package that is commensurate with other junior mineral exploration companies to enable the Company to attract and retain talent; and
- (d) to ensure that the total compensation package is designed in a manner that considers the constraints that the Company is under, being a natural resource company without a history of earnings. The Board ensures that total compensation paid to all Named Executive Officers, as hereinafter defined, is fair and reasonable. The Board relies on the experience of its members in assessing compensation levels.

The Board does not benchmark its executive compensation practices, but from time to time reviews the compensation practices of companies of similar size and stage of development to ensure that the compensation paid is competitive within the Company's industry and geographic location while taking into account the financial and other resources of the Company.

Analysis of Elements

Base salary will be used to provide the Named Executive Officers a set amount of money during the year, with the expectation that each Named Executive Officer will perform his responsibilities to the best of his ability and in the best interests of the Company.

The Company considers the granting of incentive stock options to be a significant component of executive compensation as it allows the Company to reward each Named Executive Officer's efforts to increase value for shareholders without requiring the Company to use cash from its treasury. Stock options are generally awarded to directors, officers, consultants, and employees at the commencement of employment and periodically thereafter. The terms and conditions of the Company's stock option grants, including vesting provisions and exercise prices, are governed by the terms of the Company's stock option plan, as discussed in detail in the following section “Stock Option Plans and Incentive Plans.

Option-Based Awards

The Company's stock option plan will be used to provide share purchase options which are granted in consideration of the level of responsibility of the executive as well as his or her impact or contribution to the longer-term operating performance of the Company. The Board has the responsibility to administer the compensation policies related to the executive management of the Company, including option-based awards. Also see "Approval of the Stock Option Plan" below.

In determining the number of options to be granted to the executive officers, the Board takes into account the number of options, if any, previously granted to each executive officer, and the exercise price of any outstanding options to ensure that such grants are in accordance with the policies of the TSX Venture Exchange (the "TSXV"), and closely align the interests of the executive officers with the interests of shareholders.

In monitoring or adjusting the option allotments, the Board considers its own observations on individual performance (where possible) and its assessment of individual contribution to shareholder value, previous option grants and the objectives set for the Named Executive Officers and the Board. The scale of options is generally commensurate to the appropriate level of base compensation for each level of responsibility. In addition to determining the number of options to be granted pursuant to the methodology outlined above, the Board also makes the following determinations:

- parties who are entitled to participate in the stock option plan;
- the exercise price for each stock option granted, subject to the provision that the exercise price cannot be lower than a prescribed discount permitted by the TSXV from the market price on the date of grant;
- the date on which each option is granted;
- the vesting period, if any, for each stock option;
- the other material terms and conditions of each stock option grant; and
- any re-pricing or amendment to a stock option grant.

The Board makes these determinations subject to and in accordance with the provisions of the Company's stock option plan and the policies of the TSXV. The Board reviews and approves grants of options on an annual basis or periodically during a financial year.

Assessment of Risks Associated with Compensation Policies and Practices

As a result of the Company's small size and limited executive pool, the Company's process for determining executive compensation is relatively simple and does not include formal targets, criteria, or analysis. The Board has the responsibility of assessing risk as it pertains to the Company's compensation strategy. The Board has determined that, as at the date of this Information Circular, there are no identified risks arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company. In reaching this determination, the Board considered, for example, that the Company's compensation practices and policies do not include structural inconsistencies that are likely to unduly encourage or cause an executive officer to expose the Company to inappropriate or excessive risks.

The Company has not adopted a policy forbidding directors or officers from purchasing financial instruments that are designed to hedge or offset a decrease in market value of the Company's securities granted as compensation or held, directly or indirectly, by directors or officers. The Company is not aware of any directors or officers having entered into this type of transaction.

Compensation Governance

The Board oversees and recommends compensation for the Company’s executive officers. The Board also oversees the Company’s general compensation and benefits policies taking into consideration the compensation paid for directors and senior officers of companies of similar size and stage of development in the mineral exploration and development industry and determines appropriate compensation that reflects the time and effort expended by the directors and senior officers, while taking into account financial and other resources of the Company.

A compensation consultant or advisor has not been retained, at any time since the Company's most recently completed financial year, to assist the Board in determining compensation for any of the Company's directors or executive officers.

Stock Option Plans and Incentive Plans

Narrative Discussion

The Company does not have any incentive plans, pursuant to which compensation that depends on achieving certain performance goals or similar conditions within a specified period is awarded, earned, paid or payable to the Named Executive Officer, other than the Company's stock option plan which may be considered to be an "incentive plan" within the meaning of Form 51-102F6V.

The Company has no arrangements, standard or otherwise, pursuant to which directors are compensated by the Company or its subsidiaries for their services in their capacity as directors, or for committee participation, involvement in special assignments or for services as consultant or expert during the most recently completed financial year or subsequently, up to and including the date of this Information Circular, except as set forth below.

The Company has a Rolling 10% Stock Option Plan ("**the Plan**") for the granting of incentive stock options to the directors, officers, employees, or consultants. The purpose of granting such options is to assist the Company in compensating, attracting, retaining, and motivating the Directors of the Company and to closely align the personal interests of such persons to that of the shareholders.

During the year ended December 31, 2020, 2,450,000 stock options ("**Options**") were granted. One Option expired in 2022. On March 8, 2023, the Company underwent a 10:1 stock consolidation. There has been no

re-pricing of Options under the Plan since the date of grant, or otherwise during the Company's completed financial year ended December 31, 2023. As of the date of this Information Circular, there are 225,000 Options outstanding. No Options have been exercised and no new Options have been granted to directors or Named Executive Officers. The Company plans to cancel all existing Options and issue new Options in the coming year.

Approval of the Stock Option Plan (Option-Based Awards)

On November 24, 2021, the TSX Venture Exchange adopted a new Policy 4.4 governing security-based compensation ("**New Policy 4.4**"). The changes to the policy generally relate to the expansion of the policy to cover several types of security-based compensation in addition to stock options.

On August 31, 2022, the Board adopted a new Rolling 10% Stock Option Plan (the "**Stock Option Plan**") on the same terms as the Company's previous stock option plan, but including a number of new features and updates, including certain features that comply with the New Policy 4.4. The Stock Option Plan now governs all Option grants made under the Company's previous stock option plan and are deemed to have been made under the Stock Option Plan. The Stock Option Plan was last approved by the shareholders at the Annual General Meeting held on October 27, 2023, and most recently approved by the TSX Venture Exchange on October 7, 2024.

The Stock Option Plan is a rolling stock option plan pursuant to which up to 10% of the outstanding shares may be reserved for issuance from time to time, less the number of shares reserved for issue under any other share compensation arrangement.

The material terms of the Company's Stock Option Plan are as follows:

- 1) Persons who are Service Providers, being a *bona fide* Director, Officer, Employee, Management Company Employee, Consultant or Consultant Company, and also includes a company, 100% of the share capital of which is beneficially owned by one or more Service Providers are eligible to receive grants of Options under the Stock Option Plan;
- 2) The maximum aggregate number of common shares of the Company (the "**Common Shares**") that may be reserved for issuance under the Stock Option Plan, together with all other Security Based Compensation Plans, at any point in time is 10% of the outstanding Common Shares as at the date of grant or issuance of any Security Based Compensation under any of such Security Based Compensation Plans;
- 3) The Stock Option Plan provides for the following limits on grants, for so long as the Company is subject to the requirements of the TSXV, unless disinterested shareholder approval is obtained or unless permitted otherwise pursuant to the policies of the TSXV:
 - a) the maximum number of Common Shares that may be issued to any Stock Option Plan participant (and where permitted pursuant to the policies of the TSXV), any company that is wholly-owned by any participant under the Stock Option Plan, together with any other security-based compensation arrangement, within a twelve (12) month period, may not exceed 5% of the issued Common Shares calculated on the date of grant;
 - b) the maximum number of Common Shares that may be issued to insiders collectively under the Stock Option Plan, together with any other security-based compensation arrangements, within a twelve (12) month period, may not exceed 10% of the issued Common Shares calculated on the date of grant, and

- c) the maximum number of Common Shares that may be issued to insiders collectively under the Stock Option Plan, together with any other security-based compensation arrangements, may not exceed 10% of the issued Common Shares at any time.
- 4) For so long as such limitation is required by the TSXV, the maximum number of Options which may be granted within any twelve (12) month period to the Stock Option Plan participants who perform investor relations activities must not exceed 2% of the issued and outstanding Common Shares, and such Options must vest in stages over twelve (12) months with no more than 25% vesting in any three (3) month period. In addition, the maximum number of Common Shares that may be granted to any one consultant under the Stock Option Plan, together with any other security-based compensation arrangements, within a twelve (12) month period, may not exceed 2% of the issued Common Shares calculated on the date of grant.
- 5) Investor relations service providers cannot receive any security-based compensation other than Options:
- a) The Exercise Price of an Option will be set by the Board at the time such Option is allocated under the Stock Option Plan and cannot be less than the discounted market price;
 - b) The term of an Option will be set by the Board at the time such Option is allocated under the Stock Option Plan. An Option can be exercisable for a maximum of 10 years from the effective date;
 - c) Vesting of Options shall be at the discretion of the Board and, with respect to any particular Options granted under the Stock Option Plan, in the absence of a vesting schedule being specified at the time of grant, all such Options shall vest immediately. Where applicable, vesting of Options will generally be subject to:
 - i) the service provider remaining employed by or continuing to provide services to the Company or any of its affiliates as well as, at the discretion of the Board, achieving certain milestones which may be defined by the Board from time to time or receiving a satisfactory performance review by the Company or any of its affiliates during the vesting period; or
 - ii) the service provider remaining as a Director of the Company or any of its affiliates during the vesting period;
 - d) Options granted to investor relations service providers will vest such that:
 - i) no more than 25% of the Options vest no sooner than three months after the Options were granted;
 - ii) no more than another 25% of Options vest no sooner than six months after the Options were granted;
 - iii) no more than 25% of Options vest no sooner than nine months after the Options were granted; and
 - iv) the remainder of the Options vest no sooner than 12 months after the Options were granted;
 - e) In the case of an Optionee being dismissed from employment or service for Cause, such optionee's Options, whether or not vested at the date of dismissal will immediately terminate on the termination date without right to exercise same;
 - f) All Options granted shall be evidenced by written option agreements;

- g) The Company will be required to obtain disinterested shareholder approval prior to any of the following actions being effective.
- (a) The Stock Option Plan, together with any other Security Based Compensation Plans, could result at any time in:
- i) the aggregate number of Common Shares reserved for issuance to insiders exceeding 10% of the outstanding Common Shares; or
 - ii) The aggregate number of Common Shares reserved for issuance to insiders within any twelve (12) month period exceeding 10% of the outstanding Common Shares; or
 - iii) The aggregate number of Common Shares reserved for issuance to any one individual participant or service provider, within any twelve (12) month period, exceeding 5% of the outstanding Common Shares;
- (b) Any reduction in the exercise price of an Option, or extension to the expiry date of an Option, held by an insider at the time of the proposed amendment is subject to disinterested shareholder approval in accordance with the policies of the TSXV.

Except as otherwise set forth in an applicable Award Agreement and subject to the provisions of the Plan, Options shall be subject to the following conditions:

- Death: Upon death of an Optionee, any vested Option held by him at the date of death will become exercisable by the Optionee's lawful personal representatives, heirs or executors until the earlier of one year after the date of death of such Optionee and the date of expiration of the term otherwise applicable to such Option;
- Termination of Employment or Service for Cause: Where a Participant's employment is terminated by the Company for cause, such Optionee's Options, whether or not vested at the date of dismissal will immediately terminate on the Termination Date without right to exercise same.
- Termination of Employment or Service Without Cause, Voluntary Termination or Retirement: Where a Participant's employment is terminated by the Company without cause, by voluntary termination, due to retirement, any Options held by such participant at the date of termination shall be exercisable for a period of 90 days after the date of termination determined by the Board or prior to the expiration of the Option, whichever is sooner.

The Stock Option Plan has also been prepared to allow Option holders to exercise Options on a “**Cashless Exercise**” or “**Net Exercise**” basis, as now expressly permitted by New Policy 4.4. A Cashless Exercise is a method of exercising stock options in which a securities dealer loans funds to an option holder or sells the same shares as those underlying an option, prior to or in conjunction with the exercise of options, to allow the option holder to fund the exercise of some or all of their options. A Net Exercise is a method of option exercise under which the option holder does not make any payment to the issuer for the exercise of their options and receives on exercise a number of shares equal to the intrinsic value (current market price less the exercise price) of the option valued at the current market price. Under New Policy 4.4, the current market price must be the 5-day volume weighted average trading price prior to option exercise. The Net Exercise method may not be utilized by persons performing investor relations services.

Pursuant to “Cashless Exercise – sections 1.31 and 1.32 of the Stock Option Plan, in the event of a Cashless Exercise or Net Exercise, the number of Options exercised, surrendered, or converted, and not the number

of Common Shares actually issued by the Company, must be included in calculating the limits set forth in Sections 2.2, 2.6 and 2.10 of the Plan.

Pursuant to the Board's authority to govern the implementation and administration of the Stock Option Plan, all previously granted and outstanding stock options shall be governed by the provisions of the Stock Option Plan.

CORPORATE GOVERNANCE DISCLOSURE

Corporate governance refers to the policies and structure of the Board of Directors of a corporation, whose members are elected by and are accountable to the shareholders of the corporation. Corporate governance encourages establishing a reasonable degree of independence of the Board of Directors from executive management and the adoption of policies to ensure the Board recognizes the principles of good management. The Board of the Company is committed to sound corporate governance practices, as such practices are both in the interests of shareholders and help to contribute to effective and efficient decision-making.

National Policy 58-201 establishes corporate governance guidelines which apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company's practices comply with the guidelines. However, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore not all guidelines have been adopted. National Instrument 58-101 mandates disclosure of corporate governance practices which disclosure is set out below.

Risk Management

The Board of Directors is responsible for the adoption of a strategic planning process, identification of principal risks and implementing risk management systems, succession planning and the continuous disclosure requirements of the Company under applicable securities laws and regulations. In addition, the Board is tasked with assessing risk as it pertains to the Company's compensation strategy (see also Executive Compensation – “Assessment of Risks Associated with Compensation Policies and Practices” above). The Audit Committee is also tasked with certain risk management responsibilities, as set forth in section 2. (e) of the Audit Committee Charter which is attached as Schedule “A” to this Information Circular.

Independence of Members of Board

Directors are considered to be independent if they have no direct or indirect material relationship with the Company. A “**material relationship**” is a relationship which could, in the view of the Company's Board, be reasonably expected to interfere with the exercise of a director's independent judgment or in the specified circumstances set forth in Section 1.4 of NI 52-110.

The Company's Board currently consists of three (3) directors, Ronald Coombes is considered by the Board to be independent based upon the tests for independence set forth in NI 52-110. Paul Saxton is not independent as he is the President, CEO and Corporate Secretary of the Company. Dong Shim is not independent as he has acted as CFO of the Company within the last three (3) years.

Management Supervision by Board

The CEO and CFO report upon the operations of the Company separately to the Board annually and at such other times throughout the year as is considered necessary or advisable by the directors. The directors are encouraged to meet at any time they consider necessary without any members of management, including the non-independent directors, being present. The Company's auditors, legal counsel and employees may be invited to attend. The Audit Committee, which is composed of mostly independent directors, can meet with the Company's auditors with or without management being in attendance.

The Board considers that management is effectively supervised by the Board on an informal basis as the Board is actively and regularly involved in reviewing and supervising the operations of the Company and

have regular and full access to management. Independent supervision of management is further accomplished by selecting management who demonstrate a high level of integrity and ability and having strong independent Board members. In addition, the Board may appoint from time to time an independent lead director to direct Board operations.

Orientation and Continuing Education

While the Company does not have formal orientation and training programs, new Board members are provided with:

- 1) Information respecting the functioning of the Board of Directors, committees and copies of the Company's corporate governance policies;
- 2) Access to recent, publicly filed documents of the Company, technical reports, and the Company's internal financial information; and
- 3) Access to management and technical experts and consultants.

Board members are encouraged to communicate with management, auditors, and technical consultants to keep themselves current with industry trends and developments and changes in legislation with management's assistance and to attend related industry seminars and visit the Company's operations. Board members have full access to the Company's records. Board meetings may also include presentations by the Company's management and employees to give the directors additional insight into the Company's business.

Ethical Business Conduct

The Board views good corporate governance as an integral component to the success of the Company and to meet responsibilities to shareholders. The Board has adopted a Code of Conduct that is posted on its website at www.lincolnmining.com and has instructed its management and employees to abide by the Code.

The Board has also found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law, and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board in which the director has an

interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company.

Nomination of Directors

The Board considers its size each year when it considers the number of directors to recommend to the shareholders for election at the annual meeting of shareholders, considering the number required to carry out the Board's duties effectively and to maintain a diversity of views and experience.

The Board does not have a nominating committee, and these functions are currently performed by the Board as a whole. The Board assesses potential Board candidates to fill perceived needs on the Board for required skills, expertise, independence, and other factors. Members of the Board and representatives of the mining industry are consulted for possible candidates.

Audit Committee

The Board has a charter for the Audit Committee to follow in carrying out its audit and financial review functions. A copy of the charter of the Audit Committee is reproduced in Schedule "A" attached to this Information Circular. The Audit Committee reviews all financial statements of the Company prior to their publication, reviews audits, considers the adequacy of audit procedures, recommends the appointment of independent auditors, reviews and approves the professional services to be rendered by them and reviews fees for audit services. The charter has set criteria for membership, which all members of the Audit Committee are required to meet consistent with NI 52-110 and other applicable regulatory requirements. The Audit Committee, as needed, meets separately (without management present) with the Company's auditors to discuss the various aspects of the Company's financial statements and the independent audit.

Board Committees

As the directors are actively involved in the operations of the Company and the size of the Company's operations does not warrant a larger Board of Directors, the Board has determined that additional committees are not necessary at this stage of the Company's development.

Assessments

The Board has no special structure in place for evaluating the effectiveness of the Board, its committees, and individual directors. Based on general feedback from individual directors and management, the Board will assess its operations and adequacy of information provided to the Board and make necessary changes.

Expectations of Management

The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan and to meet performance goals and objectives.
